[The sample *Works Cited* list that follows was created using the Bibliography feature available on the References tab. This feature offers the option to specify MLA style, so that your references are automatically formatted correctly. You can also use this feature to add in-text citations, such as the one shown at the end of this paragraph. To add page numbers to a citation after you insert it, right-click the citation and then click Edit Citation. Note also that MLA rules for citations and references are extensive. So it’s a good idea to refer to *MLA 7th Edition* for further information.] (AuthorLastName Pages)

[To use this template when creating the outline for your paper, on the Home tab, in the Styles gallery, click No Indent. Then, on the same tab, in the Paragraph group, click the Multilevel List icon and then click the MLA Outline style that appears under List Styles. The first six levels of this list style correspond to the outline levels defined in *MLA 7th Edition*.]

For additional guidance on formatting your research paper, consult *MLA 7th Edition* as well as your instructor.
